

Spend Analysis

Spend Analysis is taken from contract award values and covers all areas of the public sector. Going back every 5 years, the data provides real-time insight into buyer and supplier spend covering the UK & Ireland, as well as the tender opportunities and awards with which this spend relates.

This service allows you to break down public sector spend by buyer, supplier and/or by keyword. It enables you to see who is spending with whom and the associated contracts and frameworks. It provides you with the contract details, the original contract award notice and the anticipated start and end date.

Spend Analysis will support you and your business with:

- Buyer and competitor analysis – ideal for pre-bid engagement
- Providing real insight in to market share relevant to your industry and specialism
- Forecasting a pipeline of opportunities for the next 12 – 36 months sales cycle
- Spend relating to current tendering opportunity – ideal for market intelligence

Pricing

- £575 plus VAT per annum
